KOLCHIKO AIRFIELD

119.700 MHz **40 44 41 N 023 07 21 E**

RWY	Dimensions – Surface	TORA	LDA	Elevation
03 - 21	800x25m - grass	800m	800m	375'

Remarks:

- Kolchiko airfield is located inside LGTS TMA lateral limits.
- Traffic pattern altitude is 1400' AMSL. Traffic circuit is right-handed for RWY21 and left-handed for RWY03.
- Transmit position, altitude and intentions blindly on 119.700 MHz.
- Immediately after departure contact Thessaloniki RADAR 120.800 MHz *before* entering class D airspace (1000' AGL).
- Power lines 350m from threshold of RWY21.
- Crosswinds prevail in the area. Consult wind socks at both ends of RWYs and aviwind.com.
- Beware of large birds at Koronia lake area.
